

# The Strongest Phosphate Binder

**VELPHORO**<sup>®</sup>  
(sucroferric oxyhydroxide)  
chewable tablets

## Did you know...

Phosphorus is a **mineral found in foods you eat**

When you have chronic kidney disease and are on dialysis, your body **can't get rid of excess phosphorus**

Velphoro can help. Velphoro is the **strongest phosphate binder available**

**Velphoro works like a magnet**, locking up the phosphorus in the food you eat

## Write down some specific goals and plans

Looking forward to them will help motivate you to keep your phosphorus levels on track.

### Personal goals

(events, hobbies, time with friends and family)

---

---

---

### Health and wellness goals

(exercise, changing habits, reducing stress)

---

---

---

**It's important to stay on Velphoro to keep your phosphorus levels in range.**

### INDICATION

Velphoro<sup>®</sup> (sucroferric oxyhydroxide) is a phosphate binder indicated for the control of serum phosphorus levels in adult and pediatric patients 9 years of age and older with chronic kidney disease on dialysis.

### IMPORTANT SAFETY INFORMATION

- Velphoro chewable tablets must be taken with meals. Velphoro should be chewed or crushed. Do not swallow whole. Tell your healthcare provider about all the medicines you take, including prescription and nonprescription medicines, vitamins, and other supplements. Velphoro can interact with other medicines.
- Tell your healthcare provider if you have any of the following: peritonitis (an infection) during peritoneal dialysis, significant gastric or liver disorder, recent major gastrointestinal (GI) surgery, a history of hemochromatosis or other disease that results in iron buildup in the body. People with these conditions were not included in clinical studies with Velphoro, and your healthcare provider will monitor your iron levels while you are taking Velphoro.

**Please see additional Important Safety Information on back and full Prescribing Information at [Velphoro.com](http://Velphoro.com).**

**Get info, tips and tools to help you on your Velphoro journey.**

Scan the code with your cell phone camera or go to [Velphoro.com](https://www.velphoro.com).

\*Take Velphoro when you eat a meal or snack as prescribed by your doctor.

<sup>†</sup>Always keep the bottle or pill container of Velphoro tightly closed. Store at room temperature, and below 87° F.

## IMPORTANT SAFETY INFORMATION (cont'd)

- Velphoro can cause side effects. The most common side effects are discolored stool, diarrhea, and nausea. Tell your healthcare provider if you have any side effect that bothers you or that does not go away.
- Discolored (black) stool is considered normal if you are taking an oral medication that contains iron, like Velphoro. Discolored stool may mask gastrointestinal bleeding, which was not a side effect of Velphoro in clinical studies.
- Before taking Velphoro, tell your doctor if you are pregnant, plan to become pregnant, or are breastfeeding.

Velphoro is available by prescription only. For additional Safety Information, please see full Prescribing Information.
